## Section Detail

**SECTION DETAIL** Infinity Classic panels are constructed using heavy duty commercial grade extruded aluminum stiles and rails. Framing members are mechanically fastened at joints creating an exceptionally high strength door frame. All doors are customizable with 66 panel and window combinations and include clear annealed glass.

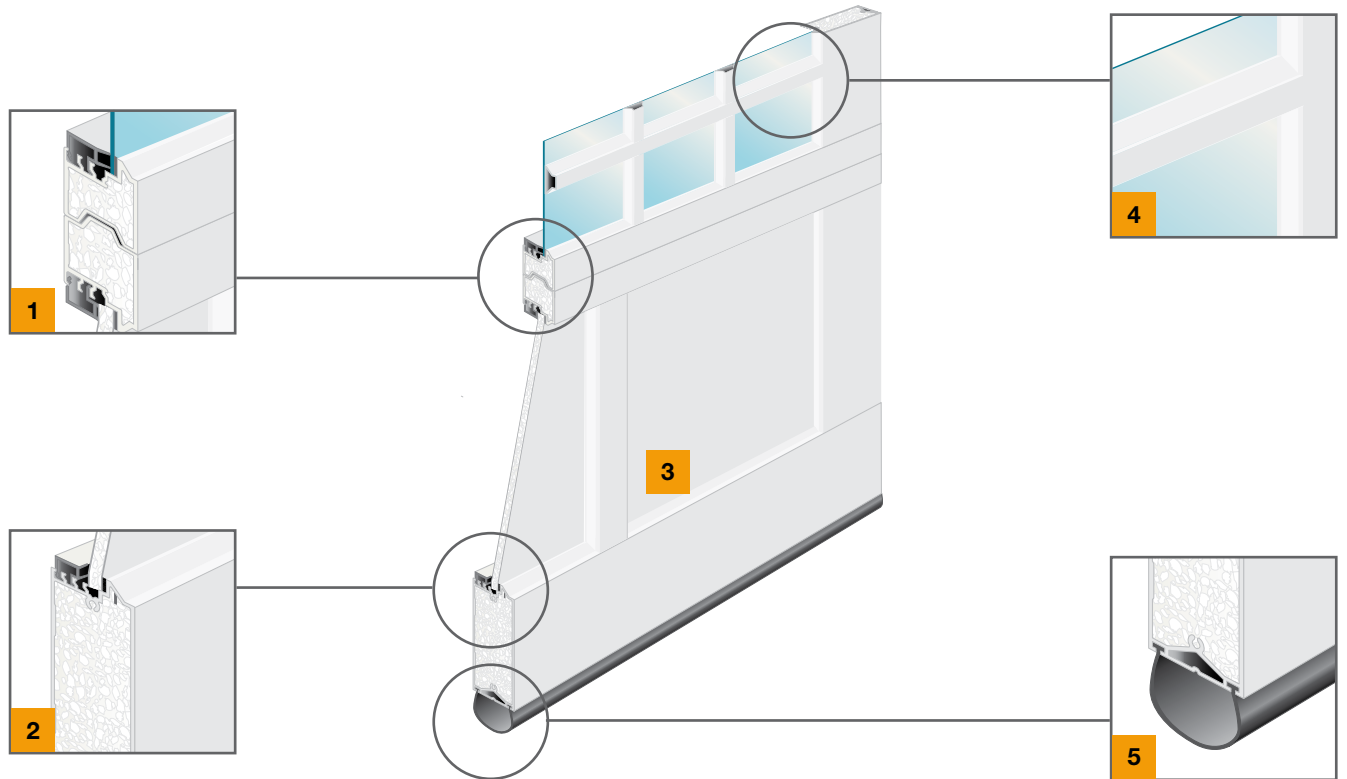

**Left Facing Page Image:** Model I30S in white polycron III with clear glass.

**Bottom Left Image:** Close-up of a white aluminum panel with smooth texture.

# Infinity Classic 7800

## Panel Features

# The Industry Leader in Innovative Door Elegance, Durability, and Efficiency

### Tongue & Groove Section Joints **1**

Precisely designed thermally broken section joints reduce air infiltration and create weather tight seal.

### Glazing Options **4**

1/8" clear tempered glass is standard and 1/2" insulated glass is optional with various glass pane design options.

### Standard Insulation **2**

Framing members and aluminum panels have a polystyrene core insulation for thermal and acoustic advantages.

### Bottom Weather Seal **5**

Keeps out wind, rain, debris and other elements for added energy savings.

### Aluminum Construction **3**

Commercial grade extruded aluminum frame and design overlays are mechanically fastened at joints.

## Basic Designs

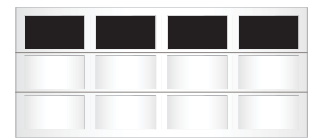

Hörmann Infinity Classic Doors are available in one inch increments up to 24 ft. wide and 16 ft. high with a maximum total door size of 336 sq. ft. For the most authentic replication of the original carriage house style, door heights up to 8 ft. are 3 sections. 32" is the maximum section height. Optional custom arches can be made to perfectly match your door opening or other custom header designs.

2-Panel  
Up to 10'0" Wide

3-Panel  
10'1" to 13'0" Wide

4-Panel  
13'1" to 20'0" Wide

Single Car  
15'0" Radius

Double Car / 15'0" Radius  
2-Arches (Standard)

Double Car / 58'0" Radius  
1-Arch (Optional)

## Custom Designs

Our all aluminum Infinity Classic garage doors can be created with your home or structure's architecture in mind. Custom designs can be created, including custom section heights and windows in both the intermediate and top sections.

The door at right has 4 sections. Each section was made a different height to achieve the desired proportions. The two upper sections contain customized 8-lite windows with the top window section having a custom arch. The lower sections contain v-groove panels. This 1116C custom door has a Walnut wood grain powder coat finish.

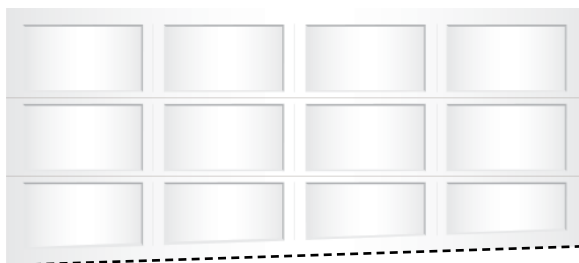

Scaled dimensioned drawings are available upon request for all custom and standard Infinity Classic designs.

## Sloped Options

Hörmann Door can custom manufacture sloped bottom sections or sloped trailer sections to fit an angular slope of the garage floor at the entryway. Limitations to size and finishes do apply. Please contact your Hörmann Door Dealer for more detailed information.

Note: The bottom of the door will typically hang down below the header, so full opening height clearance cannot be achieved.
